## POWER YOUR NEXT PRODUCTION

With StorNext 6 Scale-Out Storage

### TAKE ADVANTAGE OF THE NEW FEATURES OF STORNEXT 6

As a StorNext® owner, you can take advantage of the new features of StorNext 6 to power your media workflow to the next level—with even more performance, flexibility, collaboration, and scalability.

The powerful new features of StorNext 6 include:

**FlexSync™:** Automate the synchronization of data between multiple StorNext systems for greater data protection and collaboration

**FlexSpace™:** Allows you to have multiple instances of StorNext—located anywhere in the world—to share a single archive target

**FlexTier™:** Tier your data to your own public cloud accounts—easily and efficiently

**Offline File Management:** Control when Mac Finder retrieves your file information when browsing remote archives

**Quality of service:** Specify the maximum bandwidth allowed for a given client and/or allocate guaranteed bandwidth for specific clients and not for others

**File system auditing:** Get an activity trail of what, when, and who made changes to file metadata and file contents

**Online stripe group management:** Non-disruptively add capacity by extending existing stripe groups with added disks

**Multi-tier copy management:** Set retention times for copies on a per-tier basis, set the order of tiers for retrieval, and control tiers independently

**Increased scalability:** Continue to scale—now with more files in managed file systems, increased from 1.4 billion to 3.5 billion

**Regardless of your storage environment, you can upgrade to the unparalleled combination of high performance and advanced data management of StorNext 6.**
